EDUCATION

GALGOTIAS COLLEGE OF ENGINEERING & TECHNOLOGY   Aug-2017 - Aug 2021
B.TECH COMPUTER SCIENCE AND ENGINEERING   Greater Noida
CGPA: 7.7

EXPERIENCE

ACCENTURE | APPLICATION DEVELOPMENT ANALYST   Gurugram | Aug-2023 – Present

ACCENTURE | ASSOCIATE SOFTWARE ENGINEER   Gurugram | Aug 2021 – Aug-2023

PROJECT - MACQUARIE GROUP LIMITED

- Analyzing, designing, and implementing software solutions for the client's financial systems using **Java, SpringBoot, SQL,JPA,JMS, and Python** .
- Integrated the microservice with **JMS MQ, Kafka, and REST endpoints** , ensuring seamless data flow and communication between disparate systems.
- Developed **RESTful APIs** to expose data to users, providing **real-time** access to critical information for decision-making.
- Collaborating with the client's business and technical teams to understand requirements, resolve issues, and ensure project success.
- Participating in **Agile/Scrum** ceremonies such as sprint planning, daily stand-ups, sprint reviews, and retrospectives to deliver high-quality software on schedule.
- Developing **unit tests** and automated test suites to ensure software quality and reduce defects.
- Integrating software with the client's existing systems and platforms using tools such as **Bitbucket,Bamboo,udeploy and Argo CD** .
- Conducting **code reviews** and ensuring compliance with coding standards and best practices.
- Communicating effectively with the client's technical and non-technical stakeholders to provide updates on project status and ensure alignment with project goals.

MIRRAW | SOFTWARE DEVELOPMENT INTERN   Remote | Dec 2020 – Feb 2021

Worked on a **web scraping** project where I developed a script to collect data from various web pages, improved my proficiency in **Python, MYSQL** , and web scraping tools such as **BeautifulSoup** and **Selenium** learned how to effectively extract and manipulate data from different sources, and improved my understanding of **data storage and manipulation** with SQL.

SKILLS

PROGRAMMING LANGUAGES	Java, Python3, Javascript, html&CSS, Typescript
LIBRARIES/FRAMEWORKS	Spring, Spring Boot, Angular
TOOLS / PLATFORMS	Git, Bitbucket, Jira, udeploy, ArgoCD, maven
DATABASES	Postgresql, MySql

CERTIFICATIONS

- Java FullStack Developer - ACCENTURE
